## COURT HITS RATE FIXING

WASHINGTON, May 20.—The supreme court today held illegal the interstate commerce commission's rate-fixing plan.

The decision in the O'Fallon case for St. Louis virtually orders the commission to give consideration to "current production cost" of railroad property.

Five members of the court, in the decision read by Associate Justice James Clark McReynolds, found that the commission had disobeyed the orders of congress in the administration of the 1920 transportation act by failing to give consideration to this factor of "present value."

Upon the valuations set by the commission, all railroad rates are (Continued on Page 2)

## 2 KILLED IN \$85,800 HOLDUP

SAN DIEGO, May 20.—(UP)—Two men bringing the week-end receipts of the Agua Caliente, Mex. resort to a San Diego bank were killed today by three machine gun bandits who attacked the money car from the rear on the National City Dike road.

The bandits, who escaped with \$5800 in cash and \$80,000 in checks, fled to San Diego, where their light touring car was discovered abandoned an hour later. It was a machine stolen here.

Spurred on by a \$500 reward offered by Wirt G. Bowman, president of the Agua Caliente corporation for the capture of the bandits, dead or alive, 125 peace officers guarded exits from San Diego tonight.

The resort employs killed were N. Monroy, driver, who was shot three times, and J. V. Borrego, guard, shot nine times. They had just left National City and were proceeding to San Diego, six miles north, when the bandit car drew up from the rear.

One of the bandits was standing on the running board, to operate a machine gun. Without warning he opened fire on the money car while still 15 feet in the rear. As the bandit car drew alongside he leaped to the other running board and resumed fire. A second bandit jumped to the ground, ran to the other side of the money car and opened fire from the rear. Then the trio opened the money compartment and fled with the \$85,000.

Two women, Mrs. D. C. Handley and Mrs. John Stanley, witnessed the cold blooded attack. They were driving behind the bandits, but halted when the firing started. Later they followed the bandits to San Diego, where they lost them in the city streets.

## ATTORNEY PEEVED, TAKES RAP AT CITY S. P. STAND

Edgar C. Chapman, an attorney in the Mills building in San Francisco is peeved. He admits it, and in a letter to the city council last night he very strongly protested the action of the council taken a week ago, when it went on record as favoring the stand of the Southern Pacific, in its fight against the Great Northern in paralleling its tracks in northern California.

In his letter Chapman does not mince his words. It reads as follows:

Richmond City Council, Gentlemen:

In a few years you will be ashamed of having gone on record branding the proposed extension of the Great Northern as "a threat to the transportation system of the Pacific Coast."

As a property owner of Richmond, I desire to protest as strongly as I know how, your action. I do this because I desire to (Continued on Page 3)

## Mayor Urges Support Of Poppy Sale

To the Citizens of Richmond:—Within a few days we will be paying honor to those who sacrificed their lives in defense of the flag of this nation in recent wars.

We owe a great debt to those who gave their all in defense of those principles which we consider just, and the foundation of our nation. To some this debt will never be paid.

To others, however, we can do our little bit to make their few remaining days of life pleasant and happier. The hatred and hysteria of war has been forgotten—but many of the wounds of the World War have not been healed and the pain racked bodies must go on to live out the purpose for which they were created.

Starting Thursday of this week and ending on Memorial Day the Auxiliary of the Richmond Post of the American Legion will conduct a poppy sale, funds of which will be used for the disabled veterans of the World War.

I urge each and every citizen of Richmond to aid in this great patriotic and humanitarian work.

MATTIE A. CHANDLER  
Mayor of Richmond.

## EAST HIT BY NEW FLOOD DANGER

CHICAGO, May 20.—(UP)—The mighty Mississippi-Missouri river system was on a rampage again tonight, threatening towns and farming communities from Missouri to Indiana.

Tributaries of the two great streams overflowed their banks and drove residents of lowlands from their homes. The Mississippi and Missouri, swelled by the crests of the smaller streams, were expected to reach new high levels for the year, exceeded only by the disastrous floods of 1927.

At Illet, Mo., the St. Francis river defied the vigilance of hundreds of workers and broke over a levee, flooding 50,000 acres of cotton and corn lands.

Through Missouri, riverside dwellers piled sandbags against weakening dykes. A break in the levee of Bryant's creek at Annada, Mo., sent the waters tumbling over 700 acres.

At Russellville, Ark., 1500 acres of farm land were washed out when a levee on the Arkansas river gave way.

The U. S. Weather Bureau at St. Louis forecast a flood stage for the Mississippi river within one-tenth foot of the 1927 high water mark but added there was "no cause for alarm."

## STREET WORK AWARDED BY EL CERRITO

Awarding of the contract for the grading and filling of the continuation of Arlington boulevard into Cutting boulevard was laid over by the council of El Cerrito at their meeting Monday, as the bid for a 10 foot strip of land along the street had not been received by the city.

On the recommendation of City Engineer Ross L. Caffee the bids of A. R. Allen, Fred Meyers and the Central Construction were held for one week as they were the three lowest bids. The bid of \$1410 of A. R. Allen was the lowest bid received for the work.

The suggestion of Street Commissioner Phil A. Lee for the city to buy its own street department equipment in order to save money was laid over for further consideration.

First reading of an ordinance requiring automobile wrecking establishments in El Cerrito to post signs reading by the council of El Cerrito Monday night.

The ordinance provides that anyone buying or selling second hand automobiles or accessories must obtain a permit from the city, to do business and must either be housed in a permanent building or within an inclosure with a fence six feet high. Violation of the ordinance provides a fine of \$200 or six months in jail or both fine and imprisonment.

An ordinance regulating the use of the highways and sidewalks in El Cerrito was laid over for one week as the provision regarding the size of signs did not meet with the approval of some of the members of the council.

The proposed ordinance allows the fruit and vegetable business to use a part of the sidewalk twelve feet from the sidewalk with a height of three feet in width and height which must be 18 inches from the ground, the garden pumps must be three feet from the curb line and that signs shall not be more than four feet high and be placed at least three feet from the curb line.

A permit was granted to have a party at El Cerrito to hold games in Schwabe hall on Wednesday May 29.

A special meeting of the council of El Cerrito will be held Wednesday night at 7:30 to consider the contract of Manuel Estrada for the garbage privilege which would probably mean an income of \$100 per month to the city.

Discussion of an ordinance regulating the hours of dancing in El Cerrito will be held at the meeting. The hours of closing recommended by Chief of Police R. R. Cheek was one a. m. but was objected to by Councilman Charles Zimmerman and Attorney Will S. Robinson who represented one of the establishments who contended that the early hour of closing would drive business to the eating houses located in Richmond whose hours of dancing are not regulated.

## CANTON FALLS TO REBEL ARMY

SHANGHAI, May 20.—(UP)—The capture of the important city of Canton by the Kwangsi rebel army and the concentration of troops by Marshal Feng Yih-shang at Chenchow marked the rapid development of the Chinese military struggle today.

Canton, scene of severe fighting for the last few weeks, finally fell before the advance of the rebel army through Sunshui, which was considered the key to defense of the city and had been held by the Nationalist government troops at the cost of severe fighting.

Advices received here said Gen. Chen Chi-Tung, commander of the Nationalist forces at Canton, had fled from the city.

The invading rebel army was reinforced from the east, according to advices from the United Press correspondent at Hong Kong.

Other Kwangsi forces pushed forward against the Chinese Nationalist line along the Tankou railway line.

There is considerable uncertainty in Whchow despite the fact that it is outside the immediate war-zone. The British gunboats, Moth and Cleeth, and the American warship, Guam, are standing by to evacuate foreigners from Whchow if necessary.

The exact position of the powerful and clever Marshal Chen, the so-called "Christian General," remains indefinite although it appears certain that the last-minute efforts to reach a truce between Feng and Chiang Kai-shek, head of the Nationalist government, have failed.

Marshal Feng is gathering his forces at Chenchow, in Honan province after blowing up bridges and destroying communication lines in the path of the Nationalist forces on the border of the province.

## TOD MORGAN IN VICTORY AT L.A.

WRIGLEY FIELD, May 20.—UP.—Tod Morgan retained his junior lightweight title here tonight when he easily outpointed Baby Sal Sorio, the San Bernardino Mexican in a ten round outdoor bout.

Morgan had the better of the fight from the start, outboxing his opponent, Morgan used his left to advantage while Sal failed in numerous attempts to smash through with his dangerous right.

Morgan fought the last five rounds with his left hand apparently having hurt his right when he was using his right sparingly he was never in danger. Morgan took eight rounds. The eighth was even and the third went to Sorio.

Sorio's famous right failed to land solidly on Morgan once during the fight although a slight clip on the chin followed by a left in the region of the groin dropped Morgan to the floor in the third round.

The fight opened with the two boxing cautiously. Tod was boxing with both hands high. Sal was the aggressor at the start, but Morgan piled up a slight margin once staggering Sal with a left to the head.

Tod jabbed well with his left in the fifth, sending it to the head and body. He was outboxing the Mexican again. It was near the end of this round that Morgan began to favor his right, in the sixth and seventh Morgan kept pecking away with his left, putting up points.

Sal did more work to the body in the eighth and the round was even.

Sal came out on the aggressive again in the tenth but Morgan danced away and did not appear weary. After the first flurry Morgan dished out stiff rights to the head alternating with lefts and took the round.

Sal weighed 128 3/4 pounds; Morgan 129. The junior lightweight limit is 130 pounds.

## OAKS TO MEET MISSIONS TODAY

SAN FRANCISCO, May 20.—(UP)—Line tip of teams in the Pacific Coast league this week appears to be of primary advantage to Los Angeles and San Francisco teams, for they meet the weakest teams of the circuit.

General attention will be centered on the series here, however, for the Oakland club, one of the strongest of the circuit, meet the league-leading San Francisco Mission, while those contests are expected at Los Angeles, where Hollywood, which proved it still has a chance to win the pennant by beating the Missions last week, meets Sacramento.

Oakland beat the Missions in the first series this year, four games out of seven, and then the Missions captured six series in a row to gain an advantage of eight and a half games over the second place Angels. The Stars proved the Missions are not unbeatable by taking four out of seven games last week and thus interest in the games here this week will be high.

The Angels are favored to finish the wide difference between them and the top of the ladder by their contests against Portland and the Seals, tied for third position with Oakland and only one game behind Los Angeles, are expected to win most of their contests against Seattle.

Sacramento showed surprising strength equal to that of Hollywood by beating Oakland in five out of seven games last week.

## RICHMOND CLUB LAYS HONOR TO TWO MEMBERS

Richmond club took action at its last business meeting of the year held yesterday, to honor two dear members of the club by awarding life memberships. Mrs. J. Conwell, who has long been active in the club was thus honored and Mrs. Marie Ogborn a past president, who has served many years as an enthusiastic member was also complimented.

Mrs. C. F. DeShields presided at the concluding business session and during the afternoon gave her report of the recent state convention at Santa Cruz. Mrs. DeShields told of many matters of importance discussed and upon at the convention including restriction of billboards, business districts, elimination of certain cigarette posters, movie censorship and other action taken. She also briefly addressed the members of the district president's reports under the title of "Telling the World," each district leader telling the what, which, who and why of the club life.

The club gave over part of the afternoon to a memorial service in memory of deceased members. Mrs. Wilson made a short address in which she said: "In days gone by I used to associate myself with military music. I used to wonder as I watched the blue line of marching soldiers grow thinner, if Memorial Day would ever pass into oblivion. I know now that the heroism of our forefathers will be told generations yet unborn. Our history will keep green the memory of the heroes of the old. All the battles of the past are not found written on pages of history."

On Wednesday afternoon at the clubhouse, Richmond club will hold the final guest day program in the form of a fashion show and entertainment, followed by refreshments. Elaborate arrangements are being made for the affair, which will entertain 200 guests of the club. Mrs. J. W. Wiley is chairman of the general committee. Mrs. L. W. Wuest is chairman of decorations planning to transform the club into a beautiful garden of flowers for this occasion.

## RATE FIXING PLAN FOUND ILLEGAL

(Continued from Page 1)

fixed. Present prices being very high, application of this present value factor to any decree would tremendously increase the present aggregate valuation, and therefore, also the rates under which the railroads are authorized by the 1920 act to obtain a six percent return on their valuation. It thus affects virtually the railroad-riding public.

**Three Dissent**

Three members of the court, known as liberals, dissented, denying flatly that the commission had failed to give due consideration to the current value factor in fixing valuations in the nation's railroads.

It is estimated by experts that if valuation methods applied in the St. Louis & O'Fallon case were carried out for all of the railroads of the country, the total would approximate between \$24,000,000 and \$26,000,000. The methods advocated by the carriers themselves, and today supported by the court, would virtually double that figure.

McReynolds' decision, representing the views of himself, Chief Justice Taft, and Associate Justices Vandevanter, Sutherland and Sanford, asserted that the commission itself, discussing the valuation system in this test case "carefully refrain from stating that in any consideration whatever was given to present or reproduction costs in estimating the value of the carrier's property."

**Disregarded Rule**

"The commission disregarded the approved rule and has thereby failed to discharge the definite duty imposed by congress," McReynolds said.

"Congress has directed that values shall be fixed upon a consideration of present costs along with all other pertinent facts; and this mandate must be obeyed," he added.

Associate Justice Brandeis, in an opinion concurred in by asserting that congress in the 1920 transportation act left the commission free to give the evidence of various valuation factors "such probative force as in its judgment the evidence inherently possesses."

The decision does not clarify the utilities rate situation. The supreme court in previous cases has ruled that weight must be given to current value. This the decision reiterates, without stating how much weight must be given.

**Re-adjustment Soon**

Readjustment upward of all railroad valuations by the commission is expected to be the result of the decision, and the commission itself apparently will have to decide how much upward to scale the figures. Members of the commission today desired to examine the decision fully before commenting on it.

In the light of its far reaching effects, the case has been termed "the greatest lawsuit in history."

As a matter of law, the case has only to do with the little nine mile, coal railroad.

As a matter of fact it directly affects the properties of common carriers aggregating somewhere between \$23,000,000,000,000 and \$40,000,000,000, with more than 250,000 miles of main line road involved. Furthermore it means a re-adjustment of all valuation attempted by interstate commerce commission experts.

"No doubt there are some, perhaps many, railroads the ultimate value of which should be placed far below the sum necessary for reproduction," ruled the court. "But congress has directed that values shall be fixed upon a consideration of present costs along with all other pertinent facts; and this mandate must be obeyed."

## POWER TRUST SCORED BY NORRIS

WASHINGTON, May 20.—UP—Senator George Norris, fiery old Nebraska Republican, virtually monopolized the floor of the senate today with a lengthy speech attacking the "power trust" former Senator Irvine Lenroot of Wisconsin and President Hoover.

The principal prey of his caustic oratory was the recently exposed publishing interests of the International Power and Paper company but he dished long enough to denounce Lenroot as a hireling of the "trust" and the president as Lenroot's benefactor.

Norris led the group of independent western Republicans and Democrats who opposed Lenroot's confirmation after he had been nominated by President Hoover for a place in the court of customs appeals. The nomination was confirmed last week over this opposition.

He also took the lead in the fight last year for a senatorial investigation of the power industry. This, too, was lost but the Norris group succeeded in passing a resolution authorizing the federal trade commission to investigate. The commission's inquiry turned up the information used by Norris today as the text of his speech.

The commission has shown conclusively, Norris told the handful of senators who sat through his speech, that the "power trust" is seeking to gain control of public opinion to further its own interests through the acquisition of newspaper properties.

## MRS. RIPLEY INSTALLED AS CLUB LEADER

Uruguay had 34,591 motor vehicles in operation at the beginning of this year, according to the California State Automobile association.

## U. S. REDUCES GERMAN DEBT PAYMENT

PARIS, May 20.—UP—President Hoover's proposal authorizing a reduction in the size of annual reparations payments to the United States was presented to a "select committee" of delegates to the experts conference this afternoon and met with varied reaction.

One delegate who attended the meeting of the "select committee," headed by Alberto Pirelli of Italy, described the United States reduction as "a waiter's tip" but others expressed the belief that President Hoover had inaugurated a new stage in the discussions because it was the first time the United States had demonstrated its willingness to make a reduction.

Contrasting with the hopefulness given today's developments by the United States' attitude was the position of the Belgian delegates who steadfastly refused to continue negotiations until they were assured of a status of some \$2,250,000 which they insisted was due them from Germany because of deflated currency. Other delegates spent much time arguing that this problem is outside jurisdiction of the experts.

It was apparent that, on the whole, the United States offer of reduction had raised the hopes of the experts for eventual agreement. Certain quarters regarded the offer as a promise of further reductions and others credited the psychological effect of the move as important enough to save the conference from failure.

**BORAH SCORES DEBT RATES**

WASHINGTON, May 20.—UP—A plea from Owen D. Young for American concessions to enable the Paris experts' conference to succeed reached President Hoover in his Shenandoah fishing camp and brought about the Sunday White House reparations parley, it was learned today.

Young's message comes through the American Embassy in Paris. It said the requested concessions were "vital" to the success of the conference. Young's opinion prevailed and the United States will forego about 10 percent of its claim for army occupation costs if necessary. Payments on account of American claims for war time damage may be somewhat delayed but will not be reduced, Secretary of State Stimson said.

The White House conferees were not unanimous. Chairman Borah, of the Senate Foreign Relations committee, is off the reservation, he believes the settlement being prepared by the Paris experts is unfair to Germany. The Allied demands appear unreasonable to Borah although he said he had only newspaper reports of the proceedings upon which to base judgement. On the basis of newspaper reports, Borah does not believe the contemplated adjustment will be final or satisfactory.

## CLARA IN TESTS FOR SPEAKING QUALITIES

Rigorous tests for her vocal qualities were given to Clara Bow before it was announced that the "It" girl had a perfect voice for the audible screen.

After the tests were made work was started on her first all-talking production, "The Wild Party," which comes to the Fox-California theater for three days beginning Tuesday.

In this picture, which deals with the loves and caprices of flaming youth, Miss Bow is required to develop an "American" inflection and manner in her speech, and she does the near-slang dialog with a discerning experience for the millions who have seen her in films but who have never heard her voice heretofore.

Dorothy Arzner, only woman director in the land of celluloid drama directed "The Wild Party."

## FOUR ARRESTED IN ARBUCKLE CAFE ROW

LOS ANGELES, May 20.—(U.P.) As the result of a spectacular brawl in Roscoe "Fatty" Arbuckle's Plantation cafe at Culver City, four persons were under arrest tonight, a detective lay critically injured in a hospital and 20 rioters were hunted by police.

The brawl occurred during a raid early today but police kept the matter hushed while they photographed and fingerprinted the quartet arrested. Felony charges said to include a murder and an Oakland bank robbery were reported against two of those held.

Report tonight said that Culver City police answering a riot call entered the cafe and found merry-makers engaged in a brawl. Fighting police, the combatants forgot their differences and turned on the common foe.

In the melee, Detective Lieut. P. N. Coulter received serious injuries.

Those arrested were: Mr. and Mrs. Edward M. Mealis, Frank Williams, Joseph Morello and C. W. Williams. It was not revealed whether any of the five were held on the felony count. Mrs. Mealis was booked as drunk and disorderly.

Police thought that some of the rioters who escaped might be prominent in the screen colony, as many people frequent the cafe operated by the former movie comedian.

## 'Woman I Love' Pleases Crowd At Richmond

A sincere romantic interest is superimposed on a cross-section of ultra-fashionable metropolitan life to provide the plot of the FBO production, "The Woman I Love," one of the most entertaining films of the season which opened at the Fox-Richmond theater yesterday.

As a background for this story of a consuming love amid the hectic smart set of a big city, there is a sumptuousness of production that is in keeping with the general high quality of the story.

The FBO studios apparently spared no expense to fill "The Woman I Love" with sets and furnishings which are commensurate with the intriguing caliber of the scenario—which is based on the Erma Stormquist story that won the "True Story" magazine prize contest.

## GUARDIAN FILM STAR SOUGHT

LOS ANGELES, May 20.—U.P.—Virginia Lee Corbin, the blond screen actress, is only 17, but she made full use again today of a woman's right to change her mind.

She was to have appeared in a superior court to have a guardian appointed to handle her affairs and had even chosen M. Glicker; at the last moment she decided she didn't want him and a woman. Attorney Dr. A. Hill had the hearing continued until Friday.

The affair is the outgrowth of Miss Corbin's many difficulties with her mother. A year ago mother assertedly attempted commit suicide when accused her daughter of making poor investments. The actress said, "It was little to show for \$500 she had earned."

Miss Corbin signed an insurance complaint against her mother, withdrew it when a reconciliation followed. The daughter petitioned the court to appoint A. Hefen Keyser her guardian, her mother objected. Then girl selected Glicker, only change her mind today.

## THE DESERT SONG By VIRGINIA MORRIS

Copyright 1929 Warner Bros. Pictures, Inc.  
"THE DESERT SONG" is a Warner Bros. picturization of this novel. It is based upon the story by Otto Harbach, Laurence Schwab, Oscar Hammerstein, 2nd, and Frank Mandel.

**SYNOPSIS**  
Margot Bonvallet has long had romantic dreams of love that are not likely to be fulfilled by her approaching marriage to Captain Paul Fontaine, whose chief interest in life is to find the hiding place of the Rif's in the Moroccan desert. The Rif, an outlaw tribe, are led by a mysterious, masked stranger, the Red Shadow, and no one except Azuri, a native girl whom Fontaine has cast aside, knows that the Rif's leader is actually Pierre Birabeau, son of the commandant, whom everyone regards as a mollycoddle. The night before Margot's wedding the Red Shadow steals into the garrison and introduces himself. She is swept off her feet by his ardent love making and when the Rif's attack the garrison he carries her to his horse, ignoring her protests. He spurs his mount out into the desert waste.

Shadow immediately ordered the bandages removed from their eyes. "Where's my Bonnie?" demanded Susan querulously. Margot, still tugging at the ropes that bound her hands, cried "Where's that brute—that outlaw—that kidnaper!"

The Red Shadow bowed very low before her. Shek All Ben All ventured a suggestion of hospitality. But he addressed himself to the leader of the Rif's. "I presume you want them to get the same treatment as my women here—you want them bathed?"

The Red Shadow nodded. "By all means!"

"How dare you?" protested Margot.

every line of her alluring body. A narrow pearl bodice took the place of a waist and her bare arms were braided with broad bands of precious stones. She was far more beautiful in eastern garb than the Red Shadow had ever seen her before.

"Why did you bring me here?" was Margot's first question when the Red Shadow entered. She arose from the couch and stood in a defiant attitude.

"Why?" he replied. "To teach you to love me—so fiercely that you could give up home and friends. Call it a mad dream, but mad as it is I'm willing to risk my whole future to make it come true!"

self a friend of the French. "You see my people are innocent. He stole her. . . I know nothing!"

The Rif's along with All Ben All's men, now crowded into the room. General Birabeau turned the owner of the desert palace. "Azuri guided me here," he explained. "I've come alone—and I take this girl back with me!"

Birabeau walked directly to Margot and took her by the hand. "Azuri tells me that you've posed that no man can beat you in a single combat. Well, I am going to kill you or you will have to kill me!"

For the first time the Rif's saw the Red Shadow turn pale—and

got. "As a French citizen, in the name of the republic of France, I demand to be released."

But the Red Shadow knew better. With a final positiveness, he told her, "You do—not—love—him! Come to me!"

Margot's persuasiveness had not won her, for she shrank from him. "Tell me one good reason why you will not," he insisted.

"Why there . . . there are many 'Give me one!'"

"Why I love . . . I love Pierre Birabeau. I know that I do. Once I dreamed of romance and adventure, but I've had enough of it. I want the quiet life that Pierre planned for me!"

The Red Shadow made an impulsive attempt to take her in his arms, but before he could do so she burst open and All Ben All entered—followed by General Birabeau!

The Sheik motioned to them. "Believe me, I wish to prove my

## HOOVER NAMES U. S. DRY ACT PROBERS

WASHINGTON, May 20.—UP.—President Hoover appointed today the commission which will investigate enforcement of prohibition and other laws, naming George W. Wickersham, internationally known lawyer, as head of a body of 11, which includes one woman, and is representative of the two parties and every section of the country.

All those appointed except the woman, Ada L. Comstock, president of Radcliffe college, have had legal training, thus carrying out President Hoover's idea of turning legal minds upon the problem which he has described as foremost today.

Other members of the commission in addition to Wickersham and Miss Comstock are: Newton D. Baker, Cleveland, former secretary of war.

Frank L. Loesch, vice-president of the Chicago crime commission.

Roscoe Pound, dean of Harvard law school.

William I. Grubb, federal judge, northern district of Alabama.

Monte M. Lemann, new Orleans president, Louisiana Bar association.

William S. Kenyon, judge U. S. Circuit Court of Appeals, former U. S. senator from Iowa.

Kenneth R. MacKintosh, chief justice supreme court of Washington.

Paul J. McCormick, federal district judge, southern district, California.

Henry W. Anderson, Virginia lawyer.

**Personnel Lauded**  
The personnel of the commission generally was commended here. Most of its members are well-known nationally. Most of them have participated in such investigations as that proposed by the president, taking part in law enforcement moves of various sorts.

President Hoover is expected to call the commission together here soon to discuss its work, which it is believed will take a year or more. An appropriation of \$250,000 was made by congress at its last session to cover expenses of the inquiry. Members will get no salary, but will receive per diem expenses. The commission, itself is not provided for by law, and has no legal standing. It will make its report to the president upon completion of its survey. The president is expected to transmit the report to congress.

**Jones Act Scored**  
The personnel of the commission and individual views, on prohibition, will be subjected to close scrutiny because of the controversial nature of the work which it undertakes.

Attention probably will be called to the speech made recently by Wickersham, chairman of the commission, in which he said solution of the prohibition problem is less severe but more certain punishment. He said the Jones "Five-and-Ten" law is wrong in principle because it relies upon more severe penalties to improve law enforcement.

Rep. Rafey, Dem., Ill., charged on the floor of the House recently that Wickersham and the brother of William Howard Taft were "sugar trust" attorneys and that President Taft and Wickersham protected the "thieves" in the sugar business during the Taft administration.

## Every Constipated Person Should Try This

Stop taking pills, salts and other harsh purgatives that irritate and weaken the bowels. Such things merely force a movement without cleansing the liver of its excess bile, which explains why your constipation always returns in a day or two and you find it necessary to use more pills.

Everybody ought to know that a torpid, lazy liver clogged with bile is the true cause of all actual constipation. This stored-up bile poisons the whole system and upsets digestion, resulting in bad breath, headache, constipation, yellow skin, sour stomach, gas, dizzy spells or high blood pressure. After a good interval cleansing with Plantax, which also tones up and regulates the liver, these symptoms usually disappear completely.

Plantax is made from the juices or extracts of harmless medicinal herbs—Nature's own remedies. It works gently, mildly, but most effectively. Large bottle 11¢ at any good drug store.

## ADDED COST OF SECOND LINE, 'BURDEN'

Much of Southern Pacific's huge investment of more than fifty millions of dollars in northern California rail development would prove unjustified if business should have to be divided with a duplicating rail service, declares K. C. Ingram, general advertising agent of the Southern Pacific.

There is not sufficient traffic in that area for two railroads, he said, and the existence of another line may have serious consequences upon our transportation system in the lowering of either or both lines where they must divide a limited volume of business incapable of supporting more than one railway.

Ingram challenged the statement of the Great Northern that by its project the Pacific Northwest will be made more available to California shippers, or vice versa.

"That purpose is already accomplished," said Ingram, "by through rates and through cars now operated by Great Northern in connection with Southern Pacific through Klamath Falls, which through route competes with S. P. route through Portland."

"It is axiomatic," said Ingram, "that it costs more to divide up traffic and have it handled on two roads instead of one, where one is sufficient, and this added cost is a burden on commerce for which the public must pay."

## Pythians At State Meet

A number of members of the Richmond lodges of Knights of Pythias and Pythian Sisters are attending the state convention of the orders now being held in Sacramento.

A feature of last night's meeting in the capital was a public reception to delegates given by Martin J. Welsh, mayor of Sacramento. Following the reception a ball was enjoyed.

The convention will end Thursday with the conferring of the grand lodge ranks upon 175 past chancellors.

## FORESTRY IN ILLINOIS

We note with interest the decision of the Illinois Farmer's Institute to make forestry a major subject for institute program. Here is a subject much talked about but little understood in Illinois and still less practiced. Here and there are pieces of natural timber that have been well handled and which yield profitable crops. Occasionally we find an outstanding example of timber development from individual plantings, but they are few and far between. Meanwhile we have some millions of acres of land in Illinois that could best be devoted to the production of timber. At present these lands either are not used at all or are farmed under conditions of fertility and productivity which make profit impossible. A man farming such acres ekes out a poor existence while the aggregate product contributes to the surplus and decreases the profits from good land. What to do with this type of land is a major agricultural problem. Anything the institute may offer in the way of constructive education will constitute a real service. We question whether individual owners can be induced or encouraged to plant this land in trees. The outlay is considerable and the returns far distant. Should the state acquire title to the lands and plant and maintain forest as a state project, or is it possible to work out a co-operative scheme between state and individual owners toward that end? Here is a subject for study and discussion. —The Daily Digest.

## ART AND SOCIALISM

In this country we associate socialism with persons who go without haircuts, dress sloppily, never work and have thoughts mainly for art and argument.

But socialism's supreme development, communism, thinks that the only beauty worth preserving is the beauty of agitation, the culminating achievements of discontent, the leveling of every attribute that man has.

The tendency now, even in this material minded republic is toward reasonable and classic adornment. One of our contemporaries recently remarked that whereas the first 50 years of the Union were the period of revolution and creation, the second half century tended toward unification, the present era is toward realization of a dream of handsome proportions, harmonious colors and eye-soothing amenities. We refer to structures more than to mental qualities, although there is building an esthetic entity in men's minds, also.

The movement is not without the usual froth that boils up on any new civic admixture. The recent nation-wide conference to make the hot dog stand a thing of beauty is a sample of the bubble.

## TOO BUSY TO THINK

Senator Johnson's accurate estimate of the sub-moronic epoch of the era of bunk was startling, coming from him, but its delivery before the United States senate was the most refreshing bit we have read in that esteemed contemporary, the Record, since some of Reed's diatribes against the League of nations.

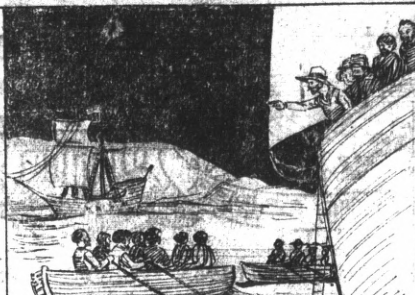

Senator Hiram elevates himself greatly in the esteem of this column because he, a notorious user of hokum, has proved that at least he, the senator from California, was at all times convinced of the hokum. So many senators, even distinguished ones, use the hokey of upper house debate without ever tumbling to the fact that they are offending in this respect.

Psychologically, America is in distressing case. Just as its wealth is being gathered into a comparatively few huge merged associations of capital, so is its thinking being done by a minority. The danger is not in this fact but in the possibility that industry and gainful works will accumulate all the thinking, leaving politics to muddle along with that minimum quantity of cerebration that distinguishes the street corner discussion.
